

Anna Kovacs
Senior Python Engineer
Stockholm, Sweden | anna.kovacs@example.com

SUMMARY

Backend and data engineer with 8 years of Python experience building data pipelines and cloud services.

EXPERIENCE

Senior Data Engineer, Freightline AB (2021-present)

- Built Airflow pipelines processing 40M shipment events/day into Snowflake
- Introduced dbt for warehouse modeling; cut analyst query times by 60%
- Ran services on AWS (ECS, S3, RDS/PostgreSQL) with Terraform and Docker

Backend Developer, Polar Payments (2018-2021)

- Developed Python (Django) payment APIs handling PCI-scoped data
- Designed PostgreSQL schemas and tuned queries for high-volume ledgers

SKILLS

Python, SQL, PostgreSQL, Airflow, dbt, Snowflake, AWS, Docker, Kafka, Terraform

EDUCATION

BSc Computer Science, KTH Royal Institute of Technology
